Essentials

The smart way to look after your eyes

CHALMERS OPTICIANS
Personal Eyecare

Your eye health is important to you and it is important to us. We all know that we only have one pair of eyes and they need to last our whole lives.

Eyeplan Essentials is an eye care package designed to ensure that you get the eye care that is essential to your continued optical health and the time and attention needed from us.

With **Eyeplan Essentials** you are entitled to your eye examination and any ongoing eye care that you need.

The specific optical care benefits you are entitled to will be explained to you by one of our professionals during your appointment.

here's how it works

- When you join **Eyeplan Essentials** you will pay a small monthly subscription.
- Your subscription entitles you to eye care services from us.
- You are entitled to visit the practice for eye care whenever you feel that you need it.

In addition to your eye care benefits, we will also separately be able to offer you certain benefits on the purchase of eyewear. Ask us about these.

your questions answered

What does Eyeplan Essentials cost?

The eye care benefits that you receive from us will be explained to you by a professional. The monthly subscription will be set by us - please ask, it will be less than you think!

When do the benefits start?

You're registered as soon as your first payment is made - eye care whenever you need it. If you have a problem with vision or your eyes, don't delay, just have it checked out.

Any benefits we offer on the purchase of spectacles also apply as soon as you join.

Is Eyeplan Essentials suitable for contact lens wearers?

Eyeplan Essentials is for spectacle wearers. Contact lens wearers need a little extra care to maintain their eye health and we have Eyeplan Contacts dedicated to contact lens wearers.
