care for your eyes

care about your looks

We all know regular eye care and lens replacement is very important for contact lens wearers. It is essential that ocular health is not compromised through contact lens wear.

Eyeplan Contacts is an eye care package designed to meet your specific eye care needs, whether you are a full or part time contact lens wearer. **Eyeplan Contacts** helps you manage the cost of both your eye care and your lenses (plus solutions if you need them) through simple monthly payments.

here's how it works

- You pay a monthly fee of £6.00 per month (or £5.00 for 16 years and under).
- This fee covers fitting, tuition and all aftercare through the year.
- Eye care is then available whenever you feel you need it at no additional cost.
- The cost of your contact lenses (and solutions) can be included in your payments.

or

- You may feel you would benefit more from our **Full Eyeplan** as this also covers all full eye examinations, great discounts on spectacle frames and lenses, plus sunglasses. Full Eyeplan also provides you with our Accidental Damage Cover.

your questions answered

What does **Eyeplan Contacts** cost?

Eyeplan Contacts costs just £6.00 per month (or £5.00 for 16 years and under). This covers all your eye care needs while wearing contact lenses.

You can also include the cost of your lenses and solutions as part of your monthly payment. This will vary depending on your lens choice, how often you wear them and your budget.

Payment is by direct debit.

When do the benefits start?

You're registered as soon as your first payment is made. If you have a problem with your vision or eyes then don't delay – have it checked out. You can also purchase anything you need from us at our special Eyeplan prices.
